Meet at: [Black Rock Nature Center](#) (click on link for a map of the meeting site)

9800 Black Rock Canyon Road, Yucca Valley, CA

Instructor: Diane Morgan, Artist, Instructor

Overview

Get started painting in watercolor, or improve with solid basic skills for creating realistic watercolors that glow and pop. Learn to add drama and impact starting with a strong image and using good color choices to make the subject take center stage. Learn color mixing both on the palette and on the paper. Rather than boring exercises, techniques will be learned while actually creating a finished painting. Often called the most difficult of mediums, there are plenty of tricks and tips in watercolor to help correct mistakes and re-work an area that is less than the desired result. Class format is a step-by-step process that incorporates demonstrations of one small section of the painting at time throughout the class time. Photos of the subject matter are provided and every student will be painting the same painting. The class is interspersed with several demonstrations, then time to paint as instructed. Each student will receive one-on-one guidance along the way. Bring your enthusiasm and go home inspired.

Supplies not included, but are available for purchase for an extra \$25 directly from the instructor. Bring lunch and beverages
