

## Lizards & Snakes of the East Mojave

### Information

---

Date/ Time: Tuesday, May 16 from 7pm - 8:30 pm    Zoom Lecture  
Friday, May 19, 7 pm – 8:30 pm    Arrive at Desert Studies Center, Unpack  
Saturday, May 20, 7 am - 4:30 pm    Field & dinner at 8pm  
Sunday, May 21, 7 am – noon    Field

Meet at: [Desert Studies Center, Zzyzx](#) (click on link for a map of the meeting site)

CSU Desert Studies Center  
49441 Zzyzx Road  
Baker, CA 92309

Instructor: Jason Wallace, Field Station Manager, CSU Desert Studies Center

### Overview

Do you love Reptiles? Do you love the desert? You are not alone. Reptiles are among the most interesting and diverse vertebrates that inhabit the desert southwest. The goal of this course is to familiarize students with the identification and natural history of the lizard and snake species found in the Eastern Mojave Desert. Over three days we will explore the Mojave National Preserve, visiting several different ecological habitats including Sand dunes, Joshua tree woodland, Creosote scrub, and ancient Volcanic lava fields and flows. The course fee includes two nights' lodging at the Desert Studies Center along with meals starting with breakfast Saturday through lunch on Sunday. This is an experience you don't want to miss.

This field study is based at the Desert Studies Center (of California State University) located within the Preserve at Soda Springs (Zzyzx), about a three-hour drive from Joshua Tree. The course fee includes two nights' lodging at the Center (dormitory rooms & some couple rooms), and meals starting with breakfast Saturday through lunch on Sunday. Upon enrollment, you will be sent detailed information about the Center and what to bring.

## Itinerary

---

### Friday, MAY 19

Arrive by 7:00 PM (Earlier is better).

7:30 Course overview and objectives.  
(Lecture will occur over Zoom, Tuesday, May 16<sup>th</sup>, 7pm-8:30pm)

### Saturday, May 20

7:30 **BREAKFAST (Mad Greek Cafe)**

8:00 Leave Zzyzx for Kelso Dunes via KelBaker Rd. Possible short stops along the way.  
Examine **Kelso dunes**.

12:00 **LUNCH** at Kelso Dunes (or Kelso Depot).

1:00 Leave Kelso. Head back towards Zzyzx via Kelbaker Rd. Stop at **Volcanic flows**.

3:00 Return to Zzyzx.  
Open **Pit-fall traps**. Explore **alluvial fan** habitat.

**Free time until dinner.**

Explore the grounds / Reflect on the day / Work on your assignment.

7:00 **DINNER**

8:00 **Road cruising** along Zzyzx Rd. and Kelbaker Rd. (Weather permitting)

### Sunday May 21

7:00 **BREAKFAST**  
Clean out your room (if you are not returning after lunch).

7:30 Check **Pit-fall traps** (lizards, snakes, insects and other arthropods).

8:30 Leave Zzyzx for Cima Rd. (Turn East on Cima Rd). Arrive at **Teutonia Peak** trailhead parking area. Explore **Joshua Tree habitat**.

12:00 **LUNCH at Teutonia Peak**

**\*\*\*This marks the official end of class\*\*\***

## What to Bring to the Course

---

### **Required Class Materials**

- Flashlight/headlamp

### **Optional Equipment**

- Hiking Poles
- Binoculars
- Camera
- 10x Loupe (magnifier)
- UV flashlight

### **The 10 Essentials:** *Every day in the Desert*

- Day pack
- 4 quarts of water
- Closed toe hiking shoes
- Lunch and snacks
- Clothing layers
- Hat
- Sun glasses
- Sunscreen
- Notebook and pencil/pen
- Whistle

### **Fitness Requirements**

---

Participants must be in good physical condition for courses/activities in a desert that may be hot, dry, windy, and sometimes surprisingly cold.

### **Hike Level**

---

Easy to Moderate

### **College Credit**

---

Taking this class for credit? Send required materials to [jwallace@fullerton.edu](mailto:jwallace@fullerton.edu)

- 1) Complete a species profile (see hand out provided in class) of either a reptile species you observed on this trip or one you wished you had seen.  
**DUE IN ONE WEEK (May 29<sup>th</sup>).**
- 2) Complete the quiz (10 questions). The quiz will be distributed at the end of class.  
**DUE IN ONE WEEK (May 29<sup>th</sup>).**

**Grading Policy:** As this is a field course, in addition to the species profile assignment and quiz, grades will also be determined by your participation and involvement during the exploration of the desert habitats. Take notes, ask questions, and by all means, have fun.

## **Guidelines**

---

- You are responsible for your safety.
- Park your car in designated areas only. Parking along the side of the road is dangerous to you and the environment.
- Rattlesnakes are present in the desert. Avoid contact with wildlife. Put your hands and feet only where you can see them.
- Stay with the group. If you get lost, stay put.
- Before leaving the class, check out with the Desert Institute Representative.
- Drink plenty of water. If you run out, notify the instructor or the Desert Institute Representative.

## **Instructor Biography**

---

**Jason Wallace** began his career at the Desert Studies Center back in 2007. As Field Station Manager, he is responsible for overseeing and participating in all aspects of facility operations and guest services. Before joining the DSC, Jason was a part-time faculty member at California State University, Fullerton and Orange Coast College, teaching classes in biology, zoology and ecology. He was also a zookeeper for seven years, caring for a wide variety of Central and South American animals, most of them primates. Jason earned his B.S. and M.S. degrees in Biology from California State University, Fullerton. His Master's thesis examined population dynamics of desert reptiles in the East Mojave/Soda Springs area. In 2008, after joining the staff, he resurrected this research to establish a long-term study of our local herpetofauna. This ongoing study is now among the most comprehensive herpetological surveys in the western deserts of North America. Jason's other research experiences include studies on Mojave fringe-toed lizard, Mojave desert tortoise, Mohave tui chub, green sea turtle, and desert willow. Jason has an extensive understanding of desert organisms and desert ecology and regularly collaborates with federal, state and local agencies such as NPS, BLM, NASA, USFWS, USGS, and CDFW. In his spare time, he enjoys music, traveling, chasing lizards, and spending quality time with his wife and two dogs.

## **Suggested Reading**
